FOR IMMEDIATE RELEASE

Three-Mile Slough Bridge Waterway Traffic Closure Date Extended

Highway 160 Three-Mile Slough Bridge Paint Project

SACRAMENTO COUNTY – The maritime traffic restriction has been extended on the \$12.6 million paint project for the Three-Mile Slough Bridge on State Highway 160, the California Department of Transportation (Caltrans) announced today.

Maritime traffic can expect the Three-Mile Slough Bridge to remain in the down position through April 30, 2016 after approval was given by the U.S. Coast Guard. The bridge was originally scheduled to re-open for all boating traffic by April 18. Additional work on the bridge and wet weather has added more work days. The target completion date is still scheduled for late summer this year.

Motorists are reminded that one-way traffic control using signals with cameras remains in effect for north- and southbound traffic travelling on Highway 160 at the bridge. Expect significant delays during peak morning and afternoon commute hours.

For more information regarding maritime traffic and restrictions please contact the U.S. Coast Guard at www.uscg.mil/hq/cg5/cg551/Mission.asp

All work is weather permitting. For more information about this project go to www.3MileBridgeTraffic.com. Or follow Caltrans District 3 on social media at <https://twitter.com/CaltransDist3>
